Total	28.9

INVESTMENT HIGHLIGHTS

- Large-cap growth-biased portfolio.
- Award-winning asset management team providing risk-adjusted performance with a focus on growth of capital.
- Unique mandate provides a hedge against deep cyclical.
- Perfect offset to majority of Canadian equity portfolios that are overweight in highly volatile sectors.
- Uses disciplined buy/sell decision criteria.
- Flexibility to own rapid growth companies supported by a disciplined, proprietary investment process.

Sleep well, knowing you'll have the financial resources to live well.

Stone Asset Management Limited ("SAM") is registered as a Portfolio Manager in the Provinces of Ontario, Alberta, British Columbia, Manitoba, Nova Scotia, Québec and Saskatchewan. The firm is also registered as an Investment Fund Manager in the Provinces of Ontario, Québec and Newfoundland. The information presented herein has been provided for general information purposes only and should not be considered a solicitation to purchase fund units. Important information regarding the Stone Funds including investment risks, tax treatment of fund units, commissions, trailing commissions and management fees and expenses are set out in the prospectus of each applicable fund. These materials should be read and/or reviewed with your financial advisor prior to making an investment.

The returns set out above are historical annualized compounded returns net of all fund fees and expenses. The returns assume a re-investment of all distributions. Historic returns are provided for general information purposes only and may not be indicative of future returns or fund performance.

The payment of distributions is not guaranteed and may fluctuate. The payment of distributions should not be confused with a fund's performance, rate of return, or yield. If distributions paid by the fund are greater than the performance of the fund, then your original investment will shrink. Distributions paid as a result of capital gains realized by a fund and income and dividends earned by a fund are taxable in your hands in the year they are paid. Your adjusted cost base will be reduced by the amount of any returns of capital. If your adjusted cost base goes below zero, then you will have to pay capital gains tax on the amount below zero. Distributions for Series A, B, F and L: annual income and net capital gains in December. Distributions will be automatically reinvested unless you elect to receive them in cash.

Distributions for Series T8A, T8B and T8C: Target annual rate of 8% of the security's net asset value on the last day of the previous calendar year. Income and return of capital monthly and, in December, net Capital gains. Distributions will be automatically reinvested unless you elect to receive them in cash.

Risk ranking is based on the Fund Volatility Risk Classification Guidelines established by The Canadian Securities Administrators. Further details are available upon request.

Mutual funds are not guaranteed, their values change frequently, and past performance may not be repeated.
