

STONE GLOBAL BALANCED FUND

Interim Management Report of Fund Performance

June 30, 2022

This interim Management Report of Fund Performance contains financial highlights but does not contain either the interim financial report or annual financial statements of the investment fund. You can get a copy of the interim financial report or annual financial statements at your request, and at no cost, by calling 1 800 336 9528; by writing to us at Stone Asset Management Limited, 1400 - 3280 Bloor Street West, Centre Tower, Toronto, Ontario, M8X 2X3; or by visiting our website at www.stoneco.com; or SEDAR at www.sedar.com.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, quarterly portfolio disclosure, or the Independent Review Committee's report to securityholders.

STONE GLOBAL BALANCED FUND

MANAGEMENT DISCUSSION OF FUND PERFORMANCE

August 23, 2022

INVESTMENT OBJECTIVES

The investment objective of the Stone Global Balanced Fund (the “Fund”) is to provide investors access to a global balanced fund seeking capital appreciation and a steady stream of current income.

INVESTMENT STRATEGIES

The Fund will generally invest approximately 60% of its assets in equity securities and 40% of its assets in fixed income securities, which weightings may vary from time to time.

The equity portion of the Fund’s assets will be allocated amongst the following three segments to achieve a diversified portfolio of common stocks:

- total-return stocks that seek to deliver a combination of capital appreciation and dividend income that trade on stock exchanges in North America.
- total-return stocks that seek to deliver a combination of capital appreciation and dividend income that trade on primary stock exchanges worldwide.
- growth-oriented stocks that primarily seek to deliver capital appreciation that trade on primary stock exchanges worldwide.

The fixed income segment will be invested in a diversified portfolio of sovereign debt securities and corporate obligations, which may include convertible securities. The fixed income portfolio will have the flexibility to allocate between developed markets in North American, European, Pacific and Emerging Market fixed-income securities.

RISK

The overall long-term risk of the Fund is as described in the most recent simplified prospectus. No material changes occurred that would significantly increase the risk associated with an investment in the Fund during the period.

RESULTS OF OPERATIONS

Market Overview and Impact on the Fund

Annus horribilis. How else can we describe the market action at the halfway mark of the year. The markets were off to a bad start, as the 19.9% drop in the Morningstar US Large Cap index has spread to a global equity selloff. The selling was spread across asset classes and resulted in most markets hitting bear market territory. There was no shortage of bad news from inflation, aggressive interest rate increases, China lockdown policy, supply chain challenges, Russia-Ukraine war and slowing corporate profits. It has truly been an unexpected and tumultuous ride this period for investors.

Most major markets are in bear market territory now, defined as dropping over 20.0% from their highs. We are sort of in no-man’s land as the stock markets have given us a bear market environment without the confirmatory macro data signaling a such recession. Most economists and analysts are preparing for what their universe of stocks would look like in a recessionary environment.

Technology stocks continue to be the hardest hit sector with FANG stocks (the four popular American technology companies: Meta, Amazon, Netflix, and Alphabet/ Google) suffering large losses bringing the heavily-weighted technology Nasdaq index down 29.5% for the six-month period.

Almost every asset class was hit from equities to bonds and cryptocurrencies. Bonds also suffered during the 6-month period with a loss of 11.6% as per the Morningstar Canada Liquid Bond Index. The only thing that rose during this period was the price of commodities. The Commodity Research Bureau Index was up 29.0% led by oil prices surging 40.0% to \$105/b and natural gas up 62.0% to \$6.04/mcf, resulting in North American gasoline prices hitting record prices. The Russia-Ukraine crisis has upended imports from Russia of these critical energy commodities. Supply and demand were already tight ahead of the war, due to the COVID-19-induced supply chain disruptions. The Russian invasion of Ukraine supercharged the rally in commodities as goods coming out of the Black Sea were disrupted.

Base metals have had a wild ride this period. After spiking to \$5/lb in March due to supply concerns, copper prices are now down 15.0% for the period settling at \$3.75/lb as the aggressive central bank rate hikes threaten to slow down global economic growth. Gold prices are down 1.0% so far as investors seek the safety of the US dollar instead of the volatile metal. The US dollar is at a 20-year high vs the Euro.

Canadian markets fared a little better than US markets due to their resource component. The Morningstar Canada index was down 10.1% for the six-month period. The leading sectors in Canada were energy +39.0% and the safety of Consumer Non-Cyclicals (-0.74%) and Utilities (-0.61%). Following the lead of the US, Technology sector was one of the weakest sectors down 39.8% as Canada’s Shopify was down 75.0% for the period. The cannabis-heavy Health Care index was down 49.0% and the heavily weighted Financials sector was down 12.7%.

Such large drops over a half year period are usually a great predictor of an upcoming recession. The issue becomes the magnitude and duration of the decline in economic activity, as the central banks are not done raising interest rates to fight off inflation.

Inflation data continues to garner front page news these days. This has prompted US President Joe Biden to take drastic measures such as releasing oil from the Strategic Petroleum Reserve.

In addition, Biden had meetings with various government officials to try to influence higher oil production. Inflation is also a global phenomenon as higher commodity prices filter into the global supply chain. Eurozone inflation came in at 8.6% annualized rate for June 2022, one of the highest recent readings.

The US 10-year treasury yield surged 151bp this period to finish at 3.0%. Higher inflation and interest rates are starting to take a toll on the consumer and the economy. The drumbeat of signals over a looming recession got louder. Recent economic data has shown that inflation is hot, and the economy is slowing. The latter has raised hopes that the Federal Reserve will eventually ease off on its aggressive interest rate moves. Consumer confidence is weaker given the higher gasoline prices and negative wealth effect from the crumbling bond and stock markets. Consumer confidence has slipped to a 16-month low. The odds of central banks pulling a soft landing are more distant as consecutive 50bp-75bp rate increases could trigger an economic slowdown or a recession (or even worse, stagflation). Higher rates will hit consumer demand. Mortgage rates in the US have climbed to above 5.7% from 3.2% at the start of the year. Such severe moves eat into home buyers’ budgets.

STONE GLOBAL BALANCED FUND

MANAGEMENT DISCUSSION OF FUND PERFORMANCE (continued)

Performance

The Global Balanced Fund's benchmark is comprised of 40% fixed income (Morningstar® Canada Liquid Bond Index) and 60% equity split between 30% Morningstar® Developed Markets Large-Mid Cap Index, 15% Morningstar® Canada Index and 15% Morningstar® US Large Cap Index. From an asset allocation perspective, underperformance relative to the Fund's benchmark was attributed to the fact that the Fund had a higher proportional weight assigned to the Underlying Investment Funds that comprise a share of the equity portion of the portfolio (Stone Global Growth Fund Series F and Stone Global Sustainability Fund Series F). The Stone Global Growth Fund Series F declined 32.3% for the first half of 2022 while the Stone Global Sustainability Fund Series F had a similar loss of 32.5%. The Global Growth Fund Series F ended the period at 8.4% of the Fund versus 13.9% at the end of 2021. Global Sustainability Fund Series F ended the period at 10.7% versus 19.2% at the end of 2021. The lower weight for both funds within the Global Balanced portfolio was due to a combination of performance and selling down positions to meet fund redemptions. The remaining equity weight not allocated to Underlying Investment Funds outperformed the equity benchmark. The Fund finished the period with a 47.3% weighting in Bonds as Bonds outperformed the Equities & Underlying Investment Funds over the period.

The Fund held a larger-than-normal cash balance growing to 4.6% at the end of the period, up from 1.5% at the end of last year which was used to dampen any market drawdowns as macro uncertainty heightened during the period. The Fund allocation were the reasons for our underperformance vs. the benchmark.

As a result, the Fund's Series generated the following returns for the period.

Series							
AA	BB	FF	L	O	T8A	T8B	T8C
(19.4)%	(19.5)%	(19.0)%	(19.5)%	0.0%	(19.3)%	(19.5)%	(19.5)%

Any differences in performance between Series are primarily due to different management and operating fees that are applicable to a particular Series. Please refer to "Past Performance" for details regarding the performance of the Fund's Series. The calculation of the Fund's Series performance takes into consideration all fees and expenses of the Fund, which are not applicable in the calculation of the benchmark's performance. The Fund's broad-based benchmark, the Morningstar® Canada Index was down 10.1% over the same period.

The comparison to this broad-based index is provided to enable you to compare the Fund's performance relative to that of the general market. A comparison to the Fund's blended benchmark, which is composed of 15% of the Morningstar® Canada Index, 15% of the Morningstar® US Large Cap Index, 40% of the Morningstar® Canada Liquid Bond Index and 30% Morningstar® Developed Markets Large-Mid Cap Index, provides a comparison to a benchmark that is more reflective of the Fund's investment objective and strategy. The benchmark was down 14.8% over the same period.

Change in Net asset value

Net Assets of the Fund decreased by 28.9% or \$17.6 million during the period, from \$60.8 million at December 31, 2021 to \$43.2 million at June 30, 2022. This change in Net Assets is attributed to net sales (redemptions) of (\$5.6) million, cash distributions of \$0.6 million and (\$11.4) million to investment operations, including market appreciation (depreciation), income and expenses.

RECENT DEVELOPMENTS

Please see "Results of Operations" for market-related developments.

On July 7, 2022, Starlight Investments Capital LP ("Starlight Capital") and Stone Investment Group Limited ("SIG") completed a previously announced plan of arrangement (the "Arrangement") whereby Starlight Capital, through a wholly owned subsidiary, acquired all of the issued and outstanding common shares of SIG. After the Arrangement, SIG became a wholly owned subsidiary of Starlight Capital and as part of the Arrangement, the successor corporation to SIG has changed its name to Starlight Capital Corporation.

In conjunction with the Arrangement, the Fund will have new members in the Independent Review Committee. Merri Jones, Heather-Anne Irwin and Paul Spagnolo replaced Ross MacKinnon, David Crowe and Ronald Riley.

RELATED PARTY TRANSACTIONS

Stone Asset Management Limited ("SAM") is the manager, portfolio manager and trustee of the Fund. SAM is a wholly owned subsidiary of Starlight Capital Corporation.

In order to obtain foreign growth exposure, the Fund is invested in Series F securities of Stone Global Growth Fund and in Series F securities of the Stone Global Sustainability Fund. The manager ensures there is no duplication of management and performance fees, if the Fund invests in another Fund managed by the manager.

Fund Manager

As Fund Manager, SAM is responsible for managing the Fund's overall business and day-to-day operational services, as described under the headings "Management Fees" and "Operating Fees".

Portfolio Manager

As Portfolio Manager, SAM is responsible for providing portfolio management services to the Fund.

Under the terms of the Investment Management Agreement, the Portfolio Manager is entitled to receive a performance fee (plus applicable taxes) from each Series of securities of the Fund equal to 10 percent of the amount by which the Fund's Series rate of return exceeds the return of the Fund's established benchmark since the last time a Performance fee was paid, multiplied by the Fund's average Series Net Asset Value ("NAV") during the calendar year.

Performance fees are limited to a maximum of 0.30 percent (plus applicable taxes) of the Funds' Series average Net Asset Value during the calendar year. Such fees are accrued monthly, if applicable, and paid annually.

Management fees

The Fund pays a management fee, calculated daily and paid monthly, based on the following schedule:

Series	AA	BB	FF	L	O	T8A	T8B	T8C
Annual Fee (%)	2.00	2.50	0.95	2.50	-	2.00	2.50	2.50

STONE GLOBAL BALANCED FUND

MANAGEMENT DISCUSSION OF FUND PERFORMANCE (continued)

The following table lists the major services received by the Fund, as a percentage of the Management Fee:

Series	AA	BB	FF	L	O	T8A	T8B	T8C
Dealer Compensation (%)	50	20	-	20	-	50	20	30
Investment and Fund Management (%)	50	80	100	80	-	50	80	70
Total (%)	100	100	100	100	-	100	100	100

Operating fees

The Fund pays operating fees (the “Operating Fees”) to SAM for the day-to-day operational services. The Operating Fees include, but are not limited to: legal and audit fees, transfer agency costs, custodian costs, filing fees, administrative and overhead costs charged by SAM, and the Independent Review Committee of the Fund.

Operating fees incurred by the Fund are allocated among the Series on a reasonable basis as determined by SAM.

At its sole discretion, the manager may waive management fees or absorb expenses of the Fund. The management expense ratios of each of the Series of units of the Fund with and without the waivers and absorptions are reported in the Ratios and Supplemental Data table.

Transactions with Related Entities

The Fund may, from time to time, engage in inter-fund trading where the Fund may enter into security trades with other mutual funds managed by SAM or Starlight Capital. These trades, if any, were executed through market intermediaries and under prevailing market terms and conditions and in accordance with SAM’s applicable policies and procedures.

Independent Review Committee

SAM has established the Independent Review Committee (the “IRC”) for the Fund in accordance with the requirements of National Instrument 81-107 – Independent Review Committee for Investment Funds in order to review conflicts of interest as they relate to investment fund management.

The compensation and other reasonable expenses of the IRC are paid pro rata out of the assets of the Fund for which the independent review committee acts. The main component of compensation is an annual retainer. The Chair of the IRC is entitled to an additional fee.

STONE GLOBAL BALANCED FUND

FINANCIAL HIGHLIGHTS

The following tables present selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the periods indicated. The information on the following tables is not expected to add across due to the increase (decrease) in net assets from operations being based on average units outstanding during the period and all other numbers being based on actual units outstanding at the relevant point in time.

†Series closed to new purchases on December 4, 2009.

‡Series closed to new purchases on August 31, 2011.

*Series opened on August 1, 2019.

Explanatory Notes:

- This information is provided as at each period shown.
- Management expense ratio ("MER") for each Series is based on total expenses (excluding distributions, commissions and other portfolio transaction costs), including the pro-rata share of expenses of any underlying Stone Funds, for the stated period and is expressed as an annualized percentage of daily average NAV during the period.
- The trading expense ratio represents total commissions and other portfolio transaction costs, of the Fund and the pro-rata share of any underlying Stone Funds expressed as an annualized percentage of daily average net asset value during the period.
- The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a fund's portfolio turnover in a year, the greater the trading costs payable by the fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

STONE GLOBAL BALANCED FUND

PAST PERFORMANCE

YEAR-BY-YEAR RETURNS

The performance information presented herein assumes all dividends of the Fund during the periods presented were reinvested in additional securities of the Fund. The performance information does not take into account sales, redemption, or other charges that would have reduced returns or performance. Past performance of the Fund is not necessarily indicative of how it will perform in the future. Returns for each series may differ primarily due to differences in management fees and operational expenses allocated to each series.

The following charts present the Fund's performance for each of the periods shown and illustrate how the Fund's performance varied from year to year. The charts show, in percentage terms, how much an investment made on the first day of each financial year would have grown or decreased by the last day of each financial year, except where noted. Returns are not disclosed for Series of the Fund that have been in existence for less than one year.

Interim Management Report of Fund Performance

June 30, 2022

CAUTION REGARDING FORWARD-LOOKING STATEMENTS

This document may contain forward-looking statements relating to anticipated future events, results, circumstances, performance or expectations that are not historical facts but instead represent our beliefs regarding future events. By their nature, forward-looking statements require us to make assumptions and are subject to inherent risks and uncertainties. There is significant risk that predictions and other forward-looking statements will not prove to be accurate. We caution readers of this document not to place undue reliance on our forward-looking statements as a number of factors could cause actual future results, conditions, actions or events to differ materially from the targets, expectations, estimates or intentions expressed or implied in the forward-looking statements. Actual results may differ materially from management expectations as projected in such forward-looking statements for a variety of reasons, including but not limited to: market and general economic conditions, interest rates, regulatory and statutory developments, the effects of competition in the geographic and business areas in which the Fund may invest and the risks detailed from time to time in the Fund's simplified prospectus. We caution that the foregoing list of factors is not exhaustive and that when relying on forward-looking statements to make decisions with respect to investing in the Fund, investors and others should carefully consider these factors, as well as other uncertainties and potential events, and the inherent uncertainty of forward-looking statements. Due to the potential impact of these factors, the Fund does not undertake, and specifically disclaims, any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, unless required by applicable law.
