INVESTMENT HIGHLIGHTS

- Seeks long-term capital appreciation by investing primarily in a portfolio of large cap dividend-paying equity securities listed on a US stock exchange
- The portfolio manager will invest in a portfolio of securities whose returns, over time, are expected to exceed the S&P 500 Index on a total return basis
- Securities to be selected based on the fundamental approach of identifying companies with superior long-term investment merit
- Ideal for investor with long-term investment goals seeking US exposure
- Monthly distributions may be a return of capital

Stone Asset Management Limited ("SAM") is registered as a Portfolio Manager in the Provinces of Ontario, Alberta, British Columbia, Manitoba, Nova Scotia, Québec and Saskatchewan. The firm is also registered as an Investment Fund Manager in the Provinces of Ontario, Québec and Newfoundland. The information presented herein has been provided for general information purposes only and should not be considered a solicitation to purchase fund units. Important information regarding the Stone Funds including investment risks, tax treatment of fund units, commissions, trailing commissions and management fees and expenses are set out in the prospectus of each applicable fund. These materials should be read and/or reviewed with your financial advisor prior to making an investment.

The returns set out above are historical annualized compounded returns net of all fund fees and expenses. The returns assume a re-investment of all distributions. Historic returns are provided for general information purposes only and may not be indicative of future returns or fund performance.

The payment of distributions is not guaranteed and may fluctuate. The payment of distributions should not be confused with a fund's performance, rate of return, or yield. If distributions paid by the fund are greater than the performance of the fund, then your original investment will shrink. Distributions paid as a result of capital gains realized by a fund and income and dividends earned by a fund are taxable in your hands in the year they are paid. Your adjusted cost base will be reduced by the amount of any returns of capital. If your adjusted cost base goes below zero, then you will have to pay capital gains tax on the amount below zero. Distributions for Series A, B, C, F and L: Monthly dividend and, in February, net capital gains. Distributions will be automatically reinvested unless you elect to receive them in cash.

Risk ranking is based on the Fund Volatility Risk Classification Guidelines established by The Canadian Securities Administrators. Further details are available upon request.

Mutual funds are not guaranteed, their values change frequently, and past performance may not be repeated.
